Your Satisfaction is our goal!

The managing group of Diplomat Safe Ltd extend our sincere greetings to all Diplomat Safe customers.

Since 1982, we have been engaged in shipping quality safes to global markets enjoying very high reputation. We believe that such a big success has come from all Diplomat Safe customers' interests to Diplomat safes and friendly encouragements to us.

As indicated in our company mark, we make it a rule to establish the utmost business relationship with the customers on the basis of trust. Trust is our managing philosophy to fulfil the goal of customer satisfaction. What we pursue is how to maximize customer satisfaction in quality and service.

To reach these corporate goals, we keep on developing products and promoting the quality improvement on the corporate basis. Furthermore, we never stop investing to enhance the possible sources for new products and quality improvements.

Promising more advanced products, faster deliveries and diversified services, we expect your everlasting supports to Diplomat Safe.

We wish all Diplomat Safe customers to enjoy more prosperous and successful business and good luck.

Footprints of Diplomat Safes

In 1982 a small safe company was founded in Busan, Korea, named Diplomat Safe Ltd. At the time when all the local safe manufacturers were in a deep sleep, Diplomat Safe was just born last but grew up rapidly to a top leader of fire safe manufacturing business in Korea.

Diplomat Safe Headquarter and factory are located in Noksan Industrial Complex in Busan, which is the most modern industrial park. Diplomat Safe operates its business activities worldwide and supplies all kinds of safes worldwide in a very high reputation.

Diplomat Safe never stops development of new products, improvement and innovation with new skills and techniques. In the result of everlasting and utmost customer satisfaction policy over 33 years, Diplomat Safe has finally won the title of World Class Product Manufacturer from the Korean government in 2002. It must be an honor and pride to all Diplomat Safe customers as well as ourselves.

At present Diplomat Safe produces and handles a variety of safes such as regular Fire safes, Premium Fire safes, Data safes, Fire filing cabinets, Hotel room safes, Key cabinets, Depository safes, Deposit boxes, Electronic digital locks and Alarms. Diplomat fire safes are all certified in heat endurance test by the worldwide famous testing institutes SP, UL, GOST and KS. To keep a very high level quality and service we perform every managing process in compliance of ISO 9001 since 1996.

Diplomat safes with up-to-date electronic digital locks offer more security and convenience, and in addition more advanced products are continuously launched in a row.

What *diplomat*® brand means?

In the dictionary the word 'diplomat' is defined a person who is employed to represent one country in another, such as an ambassador. We Diplomat Safe wish to make a role of ambassadors representing our country KOREA in the world with our high quality products such as various kinds of fire safes and filing cabinets.
To fulfil such a role, we must be responsible for how to make the products in higher level and how to treat our customers around the world. We remember this policy all the time and do our best to be an excellent producer of brand safes and to maximize our customers satisfaction.

Company mark ▲ means?

Our company mark ▲ originates from a Chinese character 信, which means TRUST. The left solid triangle is from the left part (亻) of the character 信, and the right one with stripes is from the right part (言) of 信.

In a word, we make it a rule to proceed all the business performances on the basis of trust. We do believe that nothing can be done without trust, especially in international business.

This mark includes two additional meanings. The left triangle represents the managing group, and the right one does workers.

If either of the triangles stands alone, it looks unstable, but when both stand together, they make another bigger stable triangle. That's the harmony we pursue.

Lastly, the right triangle with stripes gives us the importance of basics, going up step by step, finally we reach the top. That's justice in a fair business. Totally to say, it's the managing philosophy of Diplomat Safe Ltd.

Quality Certificates & Labels

Diplomat Safes passed in fire test by world class fire testing institutes.

diplomat SAFES made in the modern factory under Quality Management System ISO 9001 are assured in quality of highly reputed in the global market. They are fire resistance and stability of electronic digital lock.

Fire Resistance Test
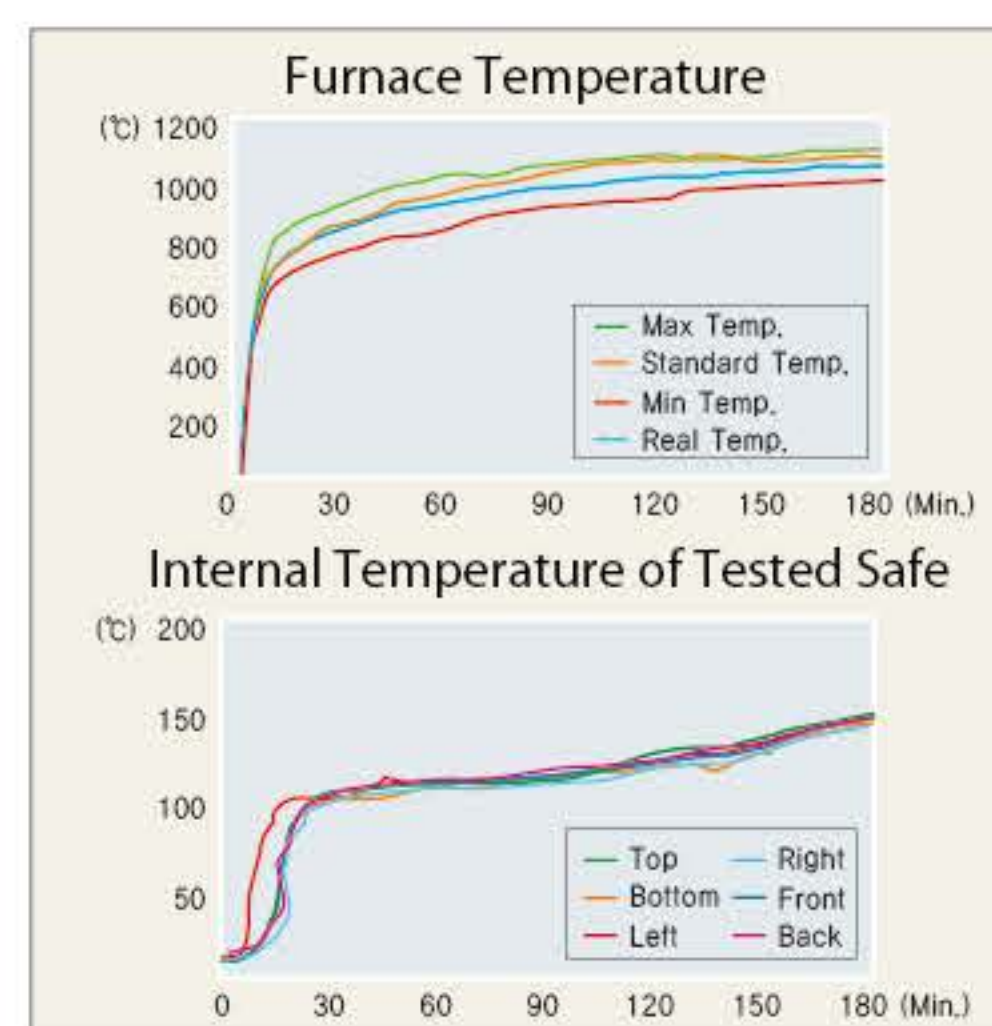

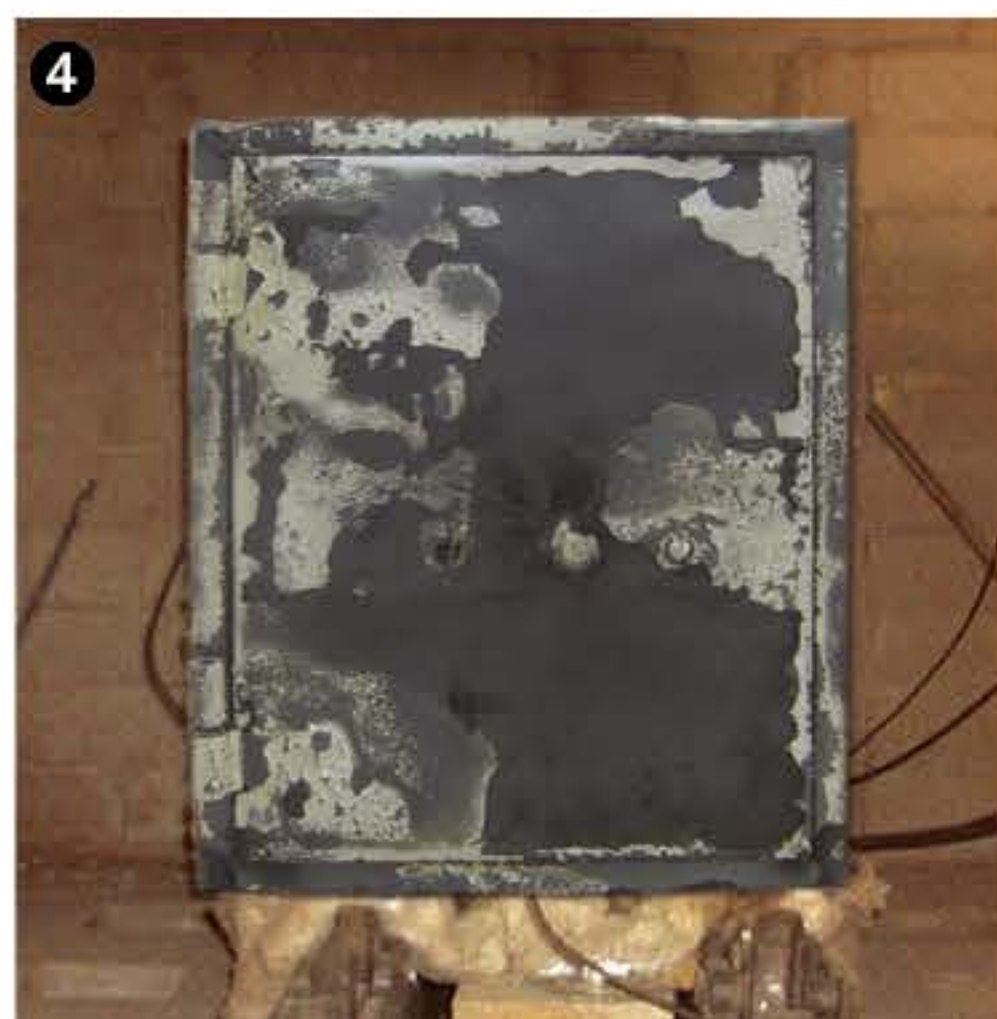

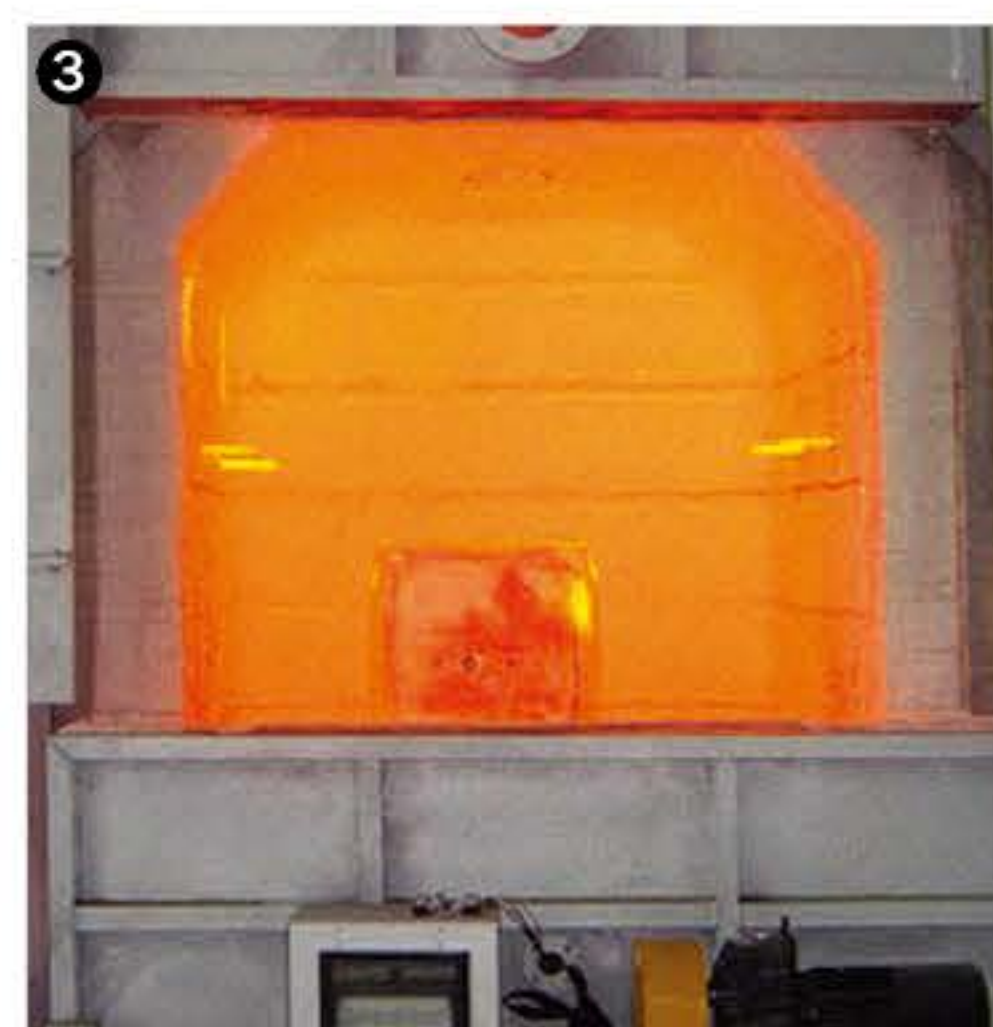

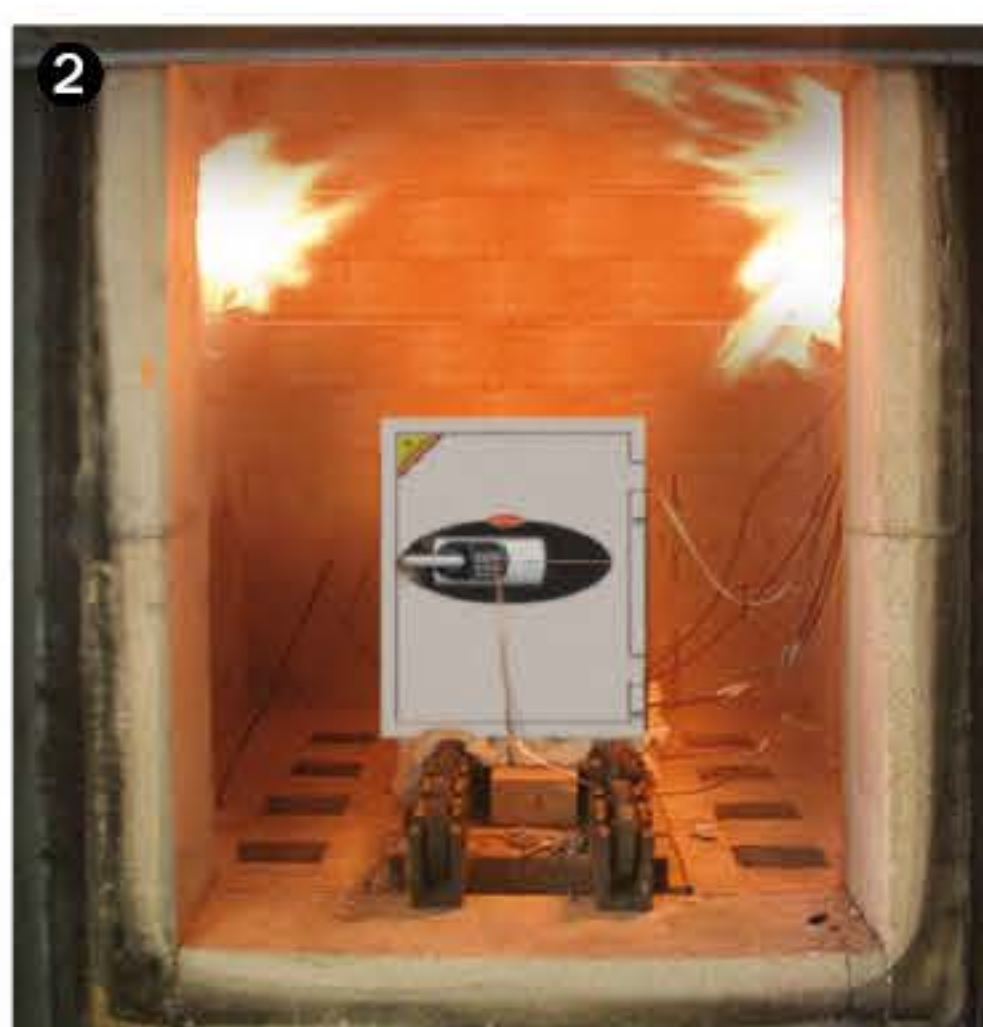

Safe Loaded in Furnace ❶

Test specimen is loaded in the furnace. Temperatures at six(6) points inside the safe are checked by the sensors of thermocouples.

Heating Test ❷❸❹

At the temperature of 1,010℃ the safe is heated in the airtight furnace over 60 minutes to 120 minutes. The maximum inside temperatures allowed by SP and KS are 150℃ and 177℃ respectively.

Check Result ❺

Heating test is finished and the test safe is taken out to check if the inside paper matters are safe without burnt out. KS defines that the papers should be readable.

Fire Safe

Imagine what would happen if your home or business were suddenly wiped out by fire.

Insurance could replace most of your furnishings,
but important documents like deeds, wills and certificates would be lost.
A fire could also destroy photographs, jewelry and other irreplaceable items in a moment.
There is only one effective way to protect your valuables against fires.
That's to keep them in a FIRE SAFE. Most people accept that a safe is the best solution.
Sizes and models are available for any purpose.

■ Amazing fire resistant Insulation
STYRONITE F ❶

■ Fire Protection for 90/120min according to
NT FIRE 017 90/120 Paper

■ Frame ❷

- Recessed double curvature frames provide virtually airtight construction preventing smoke and heat damage.

■ Accessories ❸❹

- Key locking compartment drawer is provided.
- Fully adjustable shelf or shelves
- Spacious interior dimensions allow for more efficient and larger storage area.
- Sophisticated Die-casting Handle

■ Locking Bolts ❺❻

- Durable boltwork (sides/up/down, 22)
- Recessed double curvature frames from top end to bottom end work as dead bolts.

■ Re-locker(s) provides more security.

■ Paint & Rust Free

- Top quality urethane antirust primer coated. Durable acrylic urethane leather-tone finish in smart modern colors makes the surface more smooth and bright, preventing scratches and worn-out.
- 100% top quality galvanized steel plate and antirust refined durable paint keep rust free. Every safe is cleaned to remove toxic foreign matters before painting.

Data Media Safes

How safely your computer media are protected against fire?

P Certified by SP (Certificate No. 164907)

Computer media may be easily damaged in a low level of heat (above 50℃) or humidity (above 85%). For example, even a cup of boiling coffee can destroy your data materials seriously.

The lost data by heat or humidity can't be recovered in a short time because most of them are the piled business records related with the customers for a long period.

Diplomat Data Safe certified by SP (Swedish National Testing & Research institute) will protect your business records from fire, humidity and unauthorized access.

Interior heat endurance test by SP
SP, Swedish National Testing and Research Institute
Fire Test approved (60P, 90P, 120P)

Safely protected data materials

Diplomat Data Safe is fire-tested and approved by SP
The heat endurance of the insert has been checked with six thermal couples at six different points (25mm apart from the surface of two sides, door, back, top and bottom), and each thermal couple should indicate less than 50℃ for certification.

Hotel Safe

The hotel safe by a global safe manufacturer Diplomat Safe rages various models in security and convenience.

1 Distinguished quality guaranteed

Diplomat Safe Ltd has been exporting a variety of safes to over 80 countries in the world. Diplomat fire safes are certified by world famous verification institutes like SP, UL and KS, and designated a World Class Product and Global Strong Enterprise by government agencies and received Consumers Trust Brand Award. Currently Diplomat Safe is leading in the global safe markets with its quality products.

KS (Korea)   P (Sweden)   UL (U.S.A)

ISO 9001   CE (EU)   ECB·S (EU)

2 Portfolio with various models

Diplomat Hotel Safes set up a good portfolio in size, function and color and offer wider options of choice. Besides hotel safes, other types of safes are also optional.

Four Sizes
Two Colors
Three Digital Locks
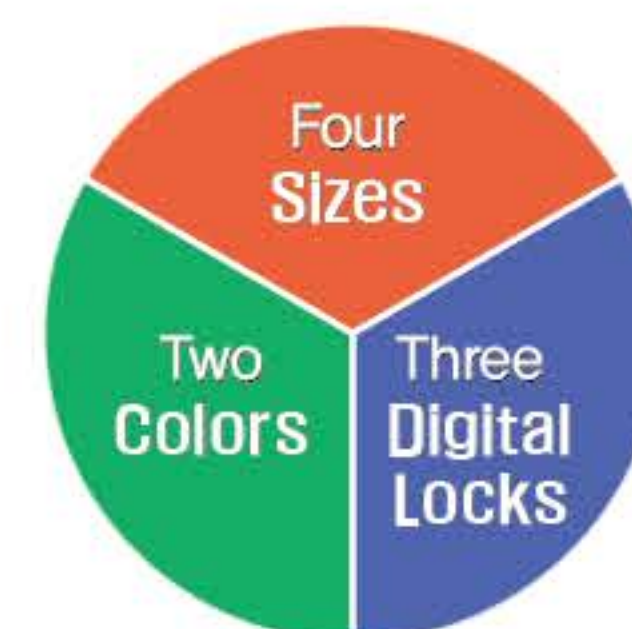

3 Faster delivery and service

2 year free service and new products information are offered throughout the world. The HQ and factory of Diplomat Safe Ltd is based in Busan, Korea, very near Busan Port and 30 minutes away from Busan International Airport.
